RE: **Madrid Concrete**

I am more than pleased to have the opportunity to recommend Madrid Concrete as a reliable, skilled and competent flatwork, reinforcing and curb concrete contractor. I have had the opportunity to work with Madrid Concrete at a project in Rancho Mission Viejo where standards were extremely high. Madrid has far met and exceeded expectations. Madrid has also stood out as a very professional, friendly and cooperative company bringing much need solutions to various aspects of our project.

In regards to these high standards we have encountered several challenges on site while reviewing recently installed flatwork with the CASP inspector. Due to design negligence we were forced to reconstruct curb work along a multitude of ADA ramps. Madrid didn't skip a beat, they took the bull by the horns by finishing requested corrections - all the while not adding a day to the schedule. Madrid has shown us they are a true team player by making your goals theirs.

I have no problem highly recommending Madrid Concrete. If any questions arise or if you need further information please do not hesitate to contact me.

Sincerely,

Collin Howell
