RE: Business Reference

Madrid Corp is a long-time customer of ORCO Block & Hardscape. Through the years, ORCO has referred many potential opportunities to Madrid for concrete, interlocking paver, porcelain and CMU Block installations. We are unaware of any issues or complaints with their work. Madrid is licensed and in good standing, which are requirements in our contractor referral program.

On a professional level, I have worked with Madrid Equipment Rental for over 12 years. Simply, they are pros. If you have any further questions, please feel free to contact me.

Sincerely,

Jack Zeimet
